

How to check & download Java Runtime Environment (JRE) version 8.161 for Mac Users

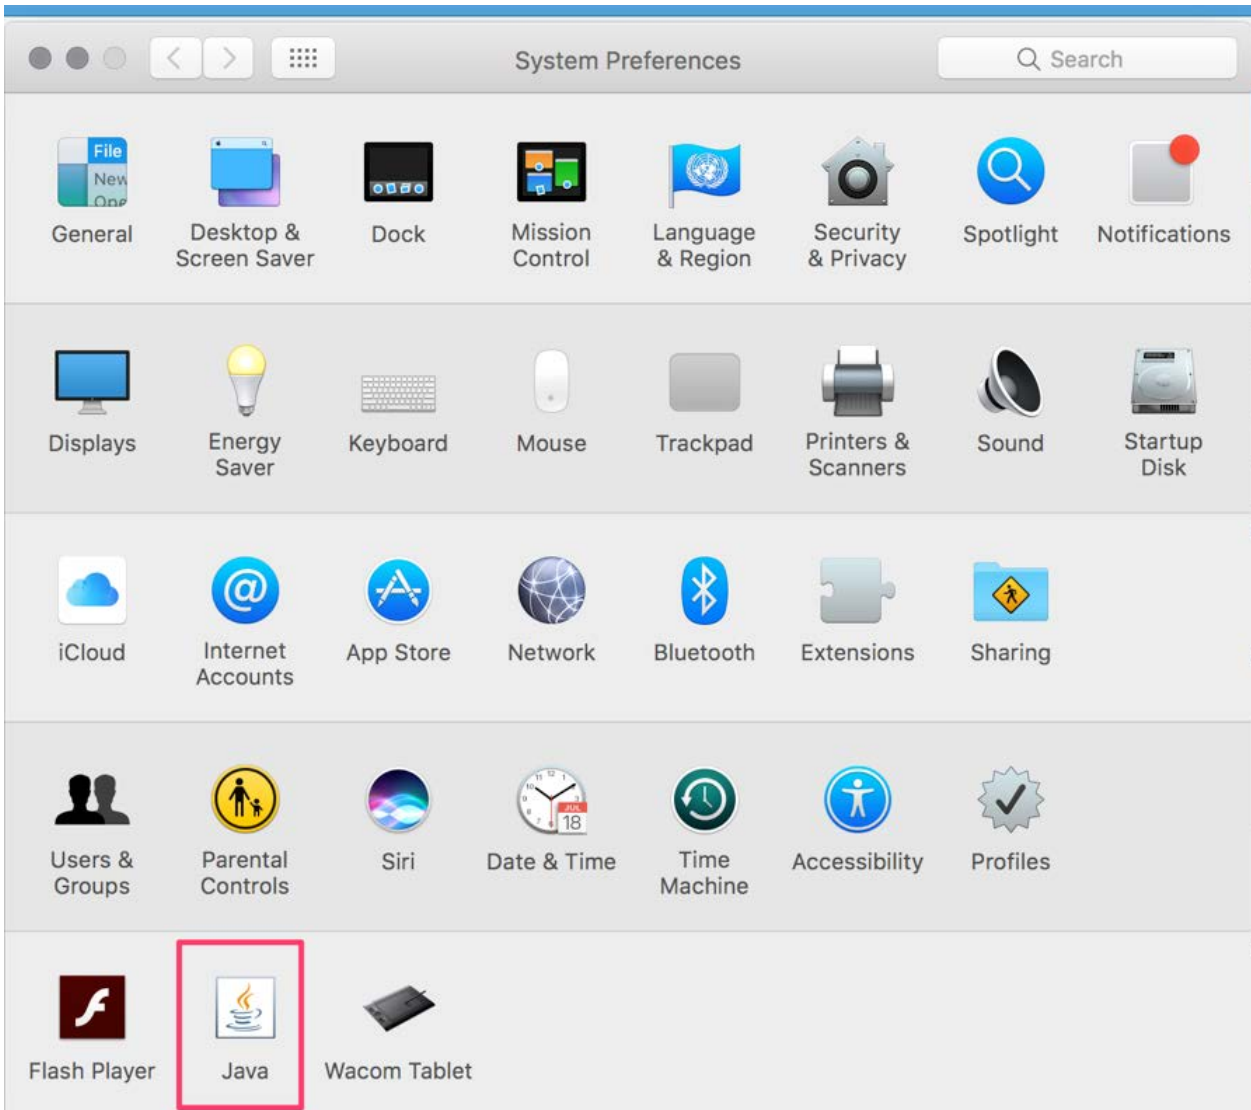

Java Runtime Environment (JRE) is required to be able to access the Callista system.

Check the computer has the compatible Java Runtime Environment (JRE) Version 8.161

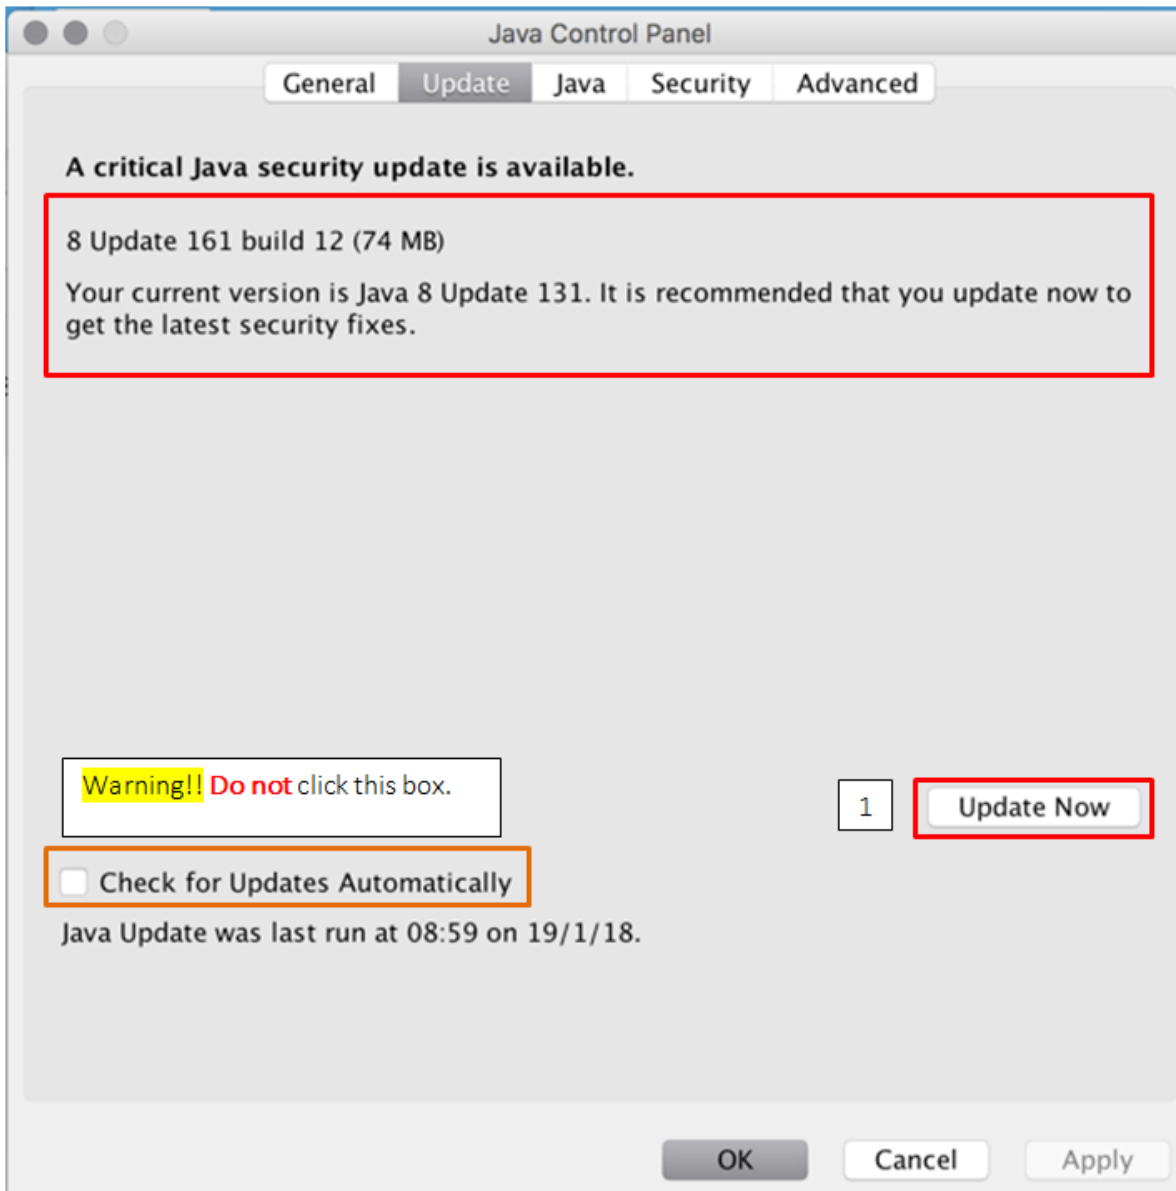

Step 1: Click 'Search icon'

Step 2: Type 'System preferences'

Step 3: Click 'Java icon'

NB: If this 'Java icon' does not appear, please see 'Exceptions notes' at the end of this document.

As shown above, **Version 8 Update 161** is the current compatible version for Callista.

If you need to update your Java version

!!! Warning!!!: Do not update this. **Do not** mark this box 'Check for Updates Automatically'

Step 4: Click 'Update now'

As at 28/11/17 – ITMS advises to go to: java.com and download Java **Version 8 Update 161**

Step 5: Download Java go to: www.java.com

Step 6: Click 'Free Java Download'

Step 7: Click 'Agree and Start Free Download' – Download Java version 8 only.

If further assistance is required, please contact ITMS on ext. 6600.

NB: As at 12/9/17 – ITMS advised Java version 9 will not work with the current version of Callista.
